8. Volunteers and Centrelink

Some Centrelink clients may be eligible to elect to volunteer to meet their Mutual Obligation Requirements. An individual's eligibility to volunteer as part of their activity requirements will depend on that particular individual's Mutual Obligation Requirements.

The implications of this for VIOs who are not-for profit organisations are as follows:

- Centrelink clients can choose to volunteer at a particular not-for-profit organisation, as part of their activity requirement, provided that organisation is on Centrelink's 'approved list'.
- Any organisation wishing to have eligible Centrelink volunteers for their volunteer programs, *must* register with Centrelink. An organisation will be listed on the 'approved list' after registration. Organisations wishing to register should complete the SU461 form which is available at: <https://www.humanservices.gov.au/customer/forms/su462>. To check whether your organisation is already on Centrelink's 'approved list', please call Centrelink on 132 850.
