A Fond Farewell: Exiting Volunteers

Volunteers may leave us for a variety of reasons. In this workshop we look at how to ease the transition, whatever the circumstances. We explore exit strategies, times when you may need to part company with a volunteer and tricky situations that may arise. We discuss ways to help volunteers remember their time positively and crucially, to ensure there is no negative flow-on for your other volunteers and your organisation's image. 30 October, 2018 from 9:30-1:00pm.

October Networking Event - Volunteering in the NDIS World and Engaging Corporate Volunteers

This presentation will cover the impact of the National Disability Insurance Scheme has had on the world of volunteering and how best to navigate this change. Cerebral Palsy will also cover advice and share their knowledge on running a corporate volunteering program. 25 October, 2018 from 10:00am - 12:00pm.

Implementing the National Standards for Volunteer Involvement

Are your standards up to scratch? The Centre for Volunteering's workshop: Implementing the 2015 Standards for Volunteer Involvement will help you benchmark your organisation against industry standards. 1 November, 2018 – 9:30-1:30pm.

Volunteer Management Forum - Transforming your Volunteering Program for the Digital Age

Virtual volunteering is a growing trend and a great way to compliment your existing volunteer program to allow your volunteer involving organisation (VIO) to access a wider volunteer pool. We encourage VIOs to think strategically and create new opportunities that will create long term impact in their organisation and lift social participation at the same time. Thus, we are collaborating with Communiteer to facilitate this interactive and practical workshop for VIOs. November 15 @ 3:00 pm - 5:00 pm. **FREE Member Workshop!**

Recruit and Retain Volunteers

Do you have a 5-star approach to attracting and keeping volunteers? Just like major companies strive to be an employer of choice, so too should volunteer-involving organisations. That's because effective recruitment and retention of staff and volunteers makes people and organisations more productive, stable, and happier. It also helps reduce workforce conflict, staff/volunteer turnover, and keeps costs down. 20 November, 2018 - 9:30 – 4:30pm.
